INSTRUCTIONS

1. **General.** 26 U.S.C. 5042 and Treasury regulations provide that the head of any family may, without payment of tax, produce not more than 200 gallons of wine a year for the use of his family, and not for sale, if he registers to do so. Under these provisions, a person is considered to be the head of a family only if he exercises family control or responsibility over one or more individuals closely connected with him by blood relationship or relationship by marriage, or by adoption, and who are living with him in one household. Anyone who intends to produce more than 200 gallons of wine a year, or who intends to produce any wine for sale, cannot cover such production by means of this registration, but must obtain a permit from the Regional Director, Bureau of Alcohol, Tobacco and Firearms, file bond and meet other requirements for the operation of a bonded wine cellar.

2. **Registration.** The head of a family who intends to produce wine for family use must complete this form in duplicate and send both copies to the Regional Director (unless instructed otherwise) for the State in which the wine will be produced and stored at least 5 days before he

begins to produce the wine. The Regional Director will keep one copy and return the other to the registrant. The producer shall retain the approved copy of the form at the place of production while the wine remains on hand.

3. It is important that you fill-in the answers to items:

- (1) The date you plan to start making wine.
- (2) Your full name and mailing address.
- (3) The address where you will make and store the wine.

4. Before you sign your name in item (7), be sure you read and understand the provisions of items 4, 5 and 6.

5. Read the pertinent Regulations on the reverse of this form.
